Continuation of 5. does NOT place the application in condition for allowance because:

Applicant has not presented any additional data or showing to overcome the rejection of record.

The arguments dated 1/14/2005, merely rehash the arguments presented earlier, which were fully

responded by the examiner in the previous office action that mailed on 11/03/2004. Further, with

respect to the argument that the two references are not from analogous art, the examiner's

position is that Bernard et al. (US' 364 B1) teaches clearly that the composition may be

formulated as a hair treating composition such as a hair setting, styling or restructuring lotion

(see col. 8, lines 15-25). McDevitt et al. (US' 033) teaches a composition for treating wool, wool

fibers or animal hair (see abstract). Therefore, the combined references are in analogous art of

hair treating formulation.
